(Please tick as appropriate)

If you wish to support the legal compliance or soundness of the Local Plan or its compliance with the duty to co-operate, please also use this box to set out your comments.

Although we support the principles of this policy, para. 35 of the NPPF states that plans should protect and exploit opportunities for the use of sustainable modes of transport modes for the movement of goods and people and encourages plug in and other ultra-low emission vehicles.

On this basis it is considered that the policy wording should be bolstered in line with government advice, within scheme viability.

(Continue on a separate sheet if necessary)

6. Please set out what modification (s) you consider necessary to make the Local Plan legally compliant or sound, having regard to the test you have identified at question 5 above where this relates to soundness. *(NB Please note that any non-compliance with the duty to co-operate is incapable of modification at examination).* You will need to say why this modification will make the Local Plan legally compliant or sound. It will be helpful if you are able to put forward your suggested revised wording of any policy or text. Please be as precise as possible.

It is recommended that the policy is amended, deleting 'major developments' and replace with 'development proposals'.

(Continue on a separate sheet if necessary)

Please note your representation should cover concisely all the information, evidence and supporting information necessary to support/justify the representation and the suggested modification, as there will not normally be a subsequent opportunity to make further representations based on the original representation at publication stage.

After this stage, further submissions will only be at the request of the Inspector, based on the matters and issues he/she identifies for examination.
