Subject: 210 Ickniel Way double story extension Ref:37426

For the attention of Claire Pudney

Dear Claire

Thank you for extending the consultation period.

I wish to point out that there are misleading and inaccurate statements in the planning application for 210 Ickniel Way SG6 4TT.

- For example [REDACTED] Ickniel Way have never had substantial two story extensions
- The extension will be extremely large and unsightly and not feel, in keeping with garden city and conservation principles.

- It will be on view from all the neighbouring properties and from letchworth common.
- Both side elevations will be visible from Ickniel Way and with glass screens each end of the balcony will be an eyesore. The balcony screens are there to stop people seeing onto it not to stop the people on it overlooking the neighbourhood
- Finally I think the large extension with its large balcony and high roof line is not compatible with the existing building and would have a detrimental effect on the outlook of a conservation area .

Regards

[REDACTED]
