

Good Evening

Dear Emma Hone

I am sending this email in regards to the current application of a business licence, and alterations request from [REDACTED] neighbour of 143 Jackmans place.

[REDACTED] live at [REDACTED] and [REDACTED] fully aware of their plans and have no objections in what they wish to do in regards to their application and support their plans. As we all know the last 2 years have been a crucial time for many during the pandemic and working from home has now become a everyday part of life.

[REDACTED] have noted another neighbours response and their objection and concerns around parking, during the day there is sufficient parking as most residents are out at work and a number of houses along this stretch of the road have driveways in which they use. Do not see how this will impact anyone to a great detriment. Like many residential roads in the town, parking in the evenings is what will be affected but 143 will not be having clients around that time so it should not directly impact residents anymore than it already does.

People do park on the verge and sometimes pavements when there is not anywhere to park but it has been like this since [REDACTED] have resided on this street [REDACTED] think thats something that NHDC need to take a look at or whomever is responsible for the layout of the road.

Kind regards

[REDACTED]

[REDACTED] Jackmans place
