Dear [REDACTED]

Re: Proposed extension to 11 Station Way, Letchworth Garden

City, Herts.

Regarding the above, I would like to confirm my objection to the following:

The proposed rear elevation shows full length windows, allowing uninterrupted views into my back garden.

When the property was purchased over 40 years ago, one of the deciding factors was the privacy enjoyed by the property.

The previous owner informed me that when my property was built, my bathroom at the rear of the house was only allowed a small ceiling height window, made with textured glass to ensure privacy to surrounding residents.

I feel this proposed extension would compromise my privacy, which is something that has always been immensely important to my family and I

I look forward to hearing from you concerning this matter.

Yours sincerely
