

## 5 Olden Mead, SG6 2SP – Alterations to Hardstanding

Propose to extend the current hard standing by 1.8m wide x 6m long to enable an additional car to be parked off the road. We propose to extend the current hard standing by 1.8m w x 6m long(10m<sup>2</sup>) to enable additional off the road vehicle parking. This would be achieved by taking land from the front garden. As part of the process remove to walls which are decorative and serve no real purpose and replace front fencing that is 1.6m high (with gaps between each fence slat which invades privacy.) with enclosed fencing 1.8m high and which is in keeping with the other boundary fences to the rear and side of the property.

Figure 1 on Page 2 shows the current hardstanding and front garden plan. Figure 2 on page 3 shows the proposed hardstanding plan. And Pages 4 and 5 have photos of the hardstanding and the dwellings front and side aspects.
