Dear [REDACTED],

Thank you for [REDACTED] letter dated 26th May 2022.

[REDACTED] object to the following in the plans:

- **Two dormer windows to the rear roof slope - 56 Meadow way**

For the following reasons:

- **Aesthetics:** This run of original garden city houses on Meadow Way have short, small gardens and the change in proportion would look wrong, as opposed to Velux type windows that retain the form of the roof line.
- **Privacy:** [REDACTED] very small corner garden would be completely overlooked and [REDACTED] would have no option to make a single private space.
- **Precedent:** Planning permission for a similar roof space conversion at 54 Meadow Way having been previously rejected and no precedent in homes of a similar type on Meadow way.

Thank you for the chance to respond, [REDACTED] trust that [REDACTED] will seek to uphold the look of Letchworth Garden City that [REDACTED] all support and treasure.

Kind regards

[REDACTED]
