Dear Sir/Ms

**Re: Your reference: 39173 (Single storey rear extension plus roof alterations and external cladding, 5 The Dale)**

Having reviewed the revised plans for the above property, I am of the opinion that they are not suitable for the purpose of assessing what impact will be on the surrounding properties (of which 5 The Dale is one!). The plans lack a clear scale & dimensions!! Also plans regarding the garage extension – which were the main concerns/objections have not been included in this “revised” proposal. There are no diagrams or drawings detailing how far wide and high they intend to extend the garage by in relation to the fence and front garden. Without such details it is very hard (almost impossible) for me to determine what the impact will be on the front garden.

In summary, in the absence of more detailed proper plans I am afraid the original objections still stand.

Regards
