

Side elevation. Viewable from attached neighbours' house

9. Materials and colours: Windows will be uPVC white casement to go with rest of the house and general window design of other properties. Proposed part-L compliant front door in black with windows as depicted below to allow for afternoon light to enter the front of the house. Tall window panels to right of door to be obscure glazing to maximise light entering house and to provide privacy. Similar design can be seen next door. Cladding in Misty Grey (sold by Wickes under Freefoam). Cladding to be laid vertically to read with the modern design of the entrance.
